

# Handsworth Wood Girls' Academy

The Department for Education, King Edward VI Academy Trust and BAM Construction are pleased to share details of their proposals for the redevelopment of Handsworth Wood Girls' Academy, off Church Lane.

Project timescale: The current planned site set up is scheduled for February 2023 with final phase of construction completing late 2025.

The proposals will replace all existing accommodation, but retains the recently constructed Sixth Form block, to provide new high quality teaching and community facilities. The proposals have been carefully considered to create a learning environment that aligns with the Academy's long-term vision for excellence.

It is important to all project stakeholders that the local community has the opportunity to comment on the proposals before a full planning application is submitted to Birmingham City Council. The following slides, therefore, provide an overview of the emerging proposals, and this consultation offers an opportunity for local residents, businesses, staff, parents and pupils to provide that feedback.
