

## B-Tec level 3 in H&SC

### Pre-Reading task for Unit 14

#### Title; Physiological disorders & their care

#### Task

For this task read the case study and answer the questions which follow.

#### **The case study:**

Jane comes to visit Dr Taylor; she has been experiencing some recent issues with her asthma...

# Patient background

Jane is recalling her story to Dr Taylor...

I am 36-years-old and I work as a secretary

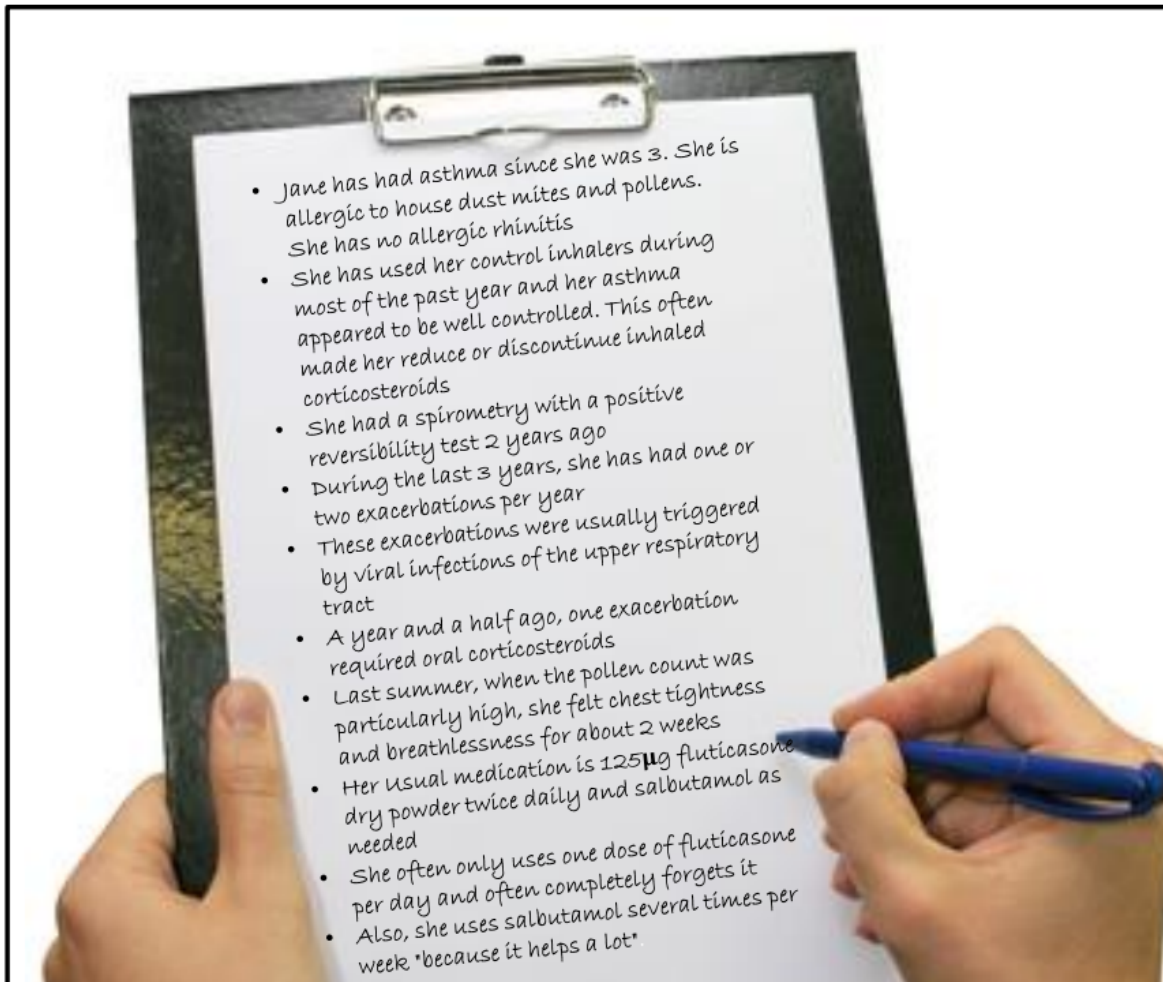

I live in a flat in a suburban area with my husband and daughter

My mother has asthma, and so does my 7-year-old daughter

# Medical History

## Questions.

- 1- What else does Dr Taylor need to check about Jane's asthma?
- 2- Dr Taylor needs to explore which additional assessments and information in order to make a decision about Jane's treatment?
- 3- Dr Taylor can choose from non-pharmacological and pharmacological approaches, what is the difference between the two?. Give an example of each.
