

THE SCHOOLS OF KING EDWARD VI IN BIRMINGHAM

In pursuit of educational excellence for all

KING EDWARD VI ACADEMY TRUST BIRMINGHAM

Online Safety Policy

Responsible Board/Committee	Academy Trust Board Foundation Board
Policy Type	Hybrid Policy
Policy Owner	Education and Digital Transformation
Statutory	Yes
Publish Online	Yes
Last Review Date	September 2023
Review Cycle	Annual
Next Review Date	August 2024
Expiry Date	October 2024
Version	2.1

School	King Edward VI Handsworth Wood Girls Academy
School Policy Owner	Safeguarding Lead
LGB Approval Date	09/10/2023

1. Introduction

The Foundation aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Deliver an effective approach to online safety, which empowers the Foundation to protect and educate the whole school community in its conduct and use of all technology
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

2. Legislation and Guidance

2.1 Legislation

This policy is based on the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- [teaching online safety in schools](#)
- [preventing and tackling bullying](#)
- [searching, screening and confiscation](#).
- [Cyber security standards](#)

It also refers to the Department's guidance on [protecting children from radicalisation: the Prevent Duty](#). It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

This policy complies with our funding agreement and articles of association. It also takes into account guidelines detailed in the Department's [filtering and monitoring standards](#).

2.2 Protecting Personal Data

The Foundation believes that protecting the privacy of our staff and pupils and regulating their safety through data management, control and evaluation is vital to whole-school and individual progress. Schools collect personal data from pupils, parents / carers, and staff and process it in order to support teaching and learning; monitor and report on pupil and teacher progress; and strengthen pastoral and safeguarding provision.

The Foundation takes responsibility for ensuring that any data that is collected and processed is used correctly and only as is necessary. Parents / carers will be kept fully informed of how data is collected, what is collected, and how it is used. National curriculum results, attendance and registration records, special educational needs data, and any relevant medical information are examples of the type of data that is needed. Through effective data management a range of school provisions, including the wellbeing and academic progression of our pupils, can be monitored and evaluated to ensure that they are being fully supported.

In line with the United Kingdom General Data Protection Regulation ('UK GDPR') and Data Protection Act 2018, and following principles of good practice when processing data, the Foundation will:

- Ensure that data is fairly and lawfully processed;
- Process data only for limited purposes;
- Ensure that all data processed is adequate, relevant and not excessive;
- Ensure that data processed is accurate;
- Not keep data longer than is necessary;
- Process the data in accordance with the data subject's rights;
- Ensure that data is secure;
- Ensure that data is not transferred to other countries without adequate protection.

There may be circumstances where schools are required either by law or in the best interests of pupils or staff to pass information onto external authorities, for example, the local authority, Ofsted, or the Department of Health. These authorities comply with data protection law and have their own policies relating to the protection of any data that they receive or collect.

While complying with data protection legislation is important and will always be considered, the safeguarding of students is our main priority – concerns around data protection should not prevent a safeguarding disclosure being investigated.

3. Roles and responsibilities

3.1 The Trustee Board and Local Governing Body

The Trustee Board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

Whilst considering their responsibility to safeguard and promote the welfare of children and provide them with a safe environment in which to learn, our governing body will do all that it reasonably can to limit children's exposure online safety risks. As part of this process, they will ensure our schools has appropriate filtering and monitoring systems in place and will regularly review their effectiveness. They will ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. Our governing body will consider the number of and age range of our pupils, those who are potentially at greater risk of harm and how often they access the IT system along with the proportionality of costs versus safeguarding risks.

The Local Governing Body will co-ordinate regular meetings with appropriate staff to review online safety incidents and safety logs as provided by the designated safeguarding lead (DSL).

All governors will:

- Ensure that they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's technology and digital systems and the internet (appendix 6)
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with SEND because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The Headteacher

The Headteacher has a duty of care for ensuring the safety (including digital safety) of members of the school community, and is therefore responsible for:

- ensuring that staff understand this policy, and that it is being implemented consistently throughout the school

- ensuring that the relevant staff receive suitable training to enable them to carry out their digital safety roles
- Being aware of the procedures to be followed in the event of a serious digital safety allegation being made against a member of staff.
- Ensuring appropriate action is taken in all cases of misuse

The Education and Inspections Act 2006 grants the Headteacher the legal power to take action against incidents affecting the school that occur outside the normal school day and this right will be exercised where it is considered appropriate.

3.3 The Designated Safeguarding Lead (DSL)

Details of the school's designated safeguarding lead (DSL) and any deputies are set out in each school's child protection and safeguarding policy.

The DSL should be appropriately trained in digital safety issues (including understanding the filtering and monitoring systems and processes in place).

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- Being aware of the potential for serious child protection / safeguarding issues to arise from sharing of personal data, access to illegal / inappropriate materials, inappropriate digital contact with strangers, incidents of grooming and cyberbullying
- Ensuring that any online safety incidents are logged on CPOM's and dealt with appropriately in line with this policy
- Managing all online safety issues and incidents in line with the school child protection and safeguarding policy
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy
- Updating and delivering staff training on online safety and preventative digital safeguarding measures
- Liaising with other agencies and / or external services if necessary
- Providing regular reports on online safety in school to the headteacher and/or Local Governing Body
- Providing regular updates for parents / carers and opportunities for them to engage in training on digital safety
- Ensuring that there are appropriate processes and systems in place for protecting pupils online, e.g., filtering and monitoring

This list is not intended to be exhaustive.

3.4 The ICT Manager

The ICT manager is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems, which are reviewed and updated on a regular basis to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material. Details of the current filtering and monitoring in use are available on request

- Ensuring that the school's technology and digital systems are secure and protected against viruses and malware, and that such safety mechanisms are updated and checked regularly
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files, without unreasonably impacting teaching and learning.
- Ensuring that any online safety incidents are logged on CPOM's and dealt with appropriately in line with this policy
- Ensuring that staff do not have the option to install on school devices any software that is not on the 'allowed' list
- Ensuring that school devices are protected using suitably secure passwords and multi-factor authentication system

This list is not intended to be exhaustive.

3.5 The School Community

Pupils, staff and parents / carers are encouraged not to publish specific and detailed private thoughts, especially those that might be considered hurtful, harmful or defamatory. The Foundation expects all staff, pupils and parents / carers to remember that they are representing the Schools of King Edward VI community at all times and must act appropriately.

This policy will act in accordance with the IT acceptable usage policy.

3.6 All Staff and Volunteers

All staff, including contractors and agency staff, and volunteers have a duty of care and are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and ensuring that pupils follow the school's terms on acceptable use (appendix 4)
- Working with the DSL to ensure that any online safety incidents are logged and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and / or harassment, both online and offline and maintaining an attitude of 'it does happen here'
- Ensuring they only use official school-provided email accounts to communicate with pupils, parents / carers and that any communication should be professionally and carefully written. Staff are representing the school at all times and should take this into account when entering into any email communications.
- Informing their Line Manager or a member of the Leadership Team if they receive any offensive, threatening or unsuitable emails either from within the school or from an external account. They should not attempt to deal with this themselves. Further advice can be sought through The Professionals Online Safety Helpline (POSH) on 0344 381 4772 or via helpline@saferinternet.org.uk

This list is not intended to be exhaustive.

All staff, governors and volunteers should receive appropriate online safety training which amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring.

Teachers must also consider their own digital footprint and ensure they adhere to the Teacher Standards.

3.7 Parents/ Carers

Outside school, parents / carers bear the same responsibility for guidance as they would normally exercise with information sources such as television, telephones, films, radio and other media.

Appropriate home use of the Internet by children can be educationally beneficial, and can make a useful contribution to home and school work. It should, however, be supervised, and parents / carers should be aware that they are responsible for their children's use of Internet resources at home. In addition, if there is a period of school closure which necessitates the wider use of video / audio conferencing to supplement or deliver teaching and learning, the principles of this policy and usual sanctions will apply.

Parents / carers are expected to:

- Notify a member of staff of any concerns or queries regarding this policy or online safety by email or by phone.
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendix 4 and 5)

4.8 Visitors and members of the community

Visitors and members of the community who use the school's technology and digital systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use.

4. Educating Pupils about online safety

It is essential that our pupils are safeguarded from potentially harmful and inappropriate online material. An effective whole school approach to online safety empowers a school to protect and educate pupils and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate.

The breadth of issues classified within online safety is considerable, but can be categorised into four areas of risk:

- content: being exposed to illegal, inappropriate or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism.
- contact: being subjected to harmful online interaction with other users; for example: child-on-child abuse, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
- conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying; and
- commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your pupils, pupils or staff are at risk, please report it to the [Anti-Phishing Working Group](#).

All secondary schools have to teach [Relationships and Sex Education and Health Education](#).

Pupils will be taught about online safety as part of the curriculum.

In Key Stage 3, pupils will be taught to:

- Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- Recognise inappropriate content, contact and conduct, and know how to report concerns

Pupils in Key Stage 4 will be taught:

- Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
- Not to provide material to others that they would not want shared further and not to share personal material which is sent to them
- What to do and where to get support to report material or manage issues online
- The impact of viewing harmful content
- That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners
- That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail
- How information and data is generated, collected, shared and used online
- How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours
- How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The safe use of social media and the internet will also be covered in other subjects where relevant.

The school will use assemblies to raise pupils' awareness of the dangers that can be encountered online and may also invite speakers to talk to pupils about this.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating Parents/ Carers about online safety

Parents and carers play a crucial role in ensuring that their children understand the need to use the Internet / mobile devices in an appropriate way. Every opportunity will be taken to help parents / carers understand these issues. The school will raise parents' / carers' awareness of internet safety in letters or other communications home, and in information via the school website or weekly parent newsletters. This policy will also be shared with parents / carers and be available online.

These letters and communications enable school to keep parents/ carers informed and updated regarding the school online filtering and monitoring systems, in addition to outlining our expectations on online tasks, websites and school contacts for pupils.

Online safety will also be covered during parents' / carers' evenings.

Parents / carers can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? [UK Safer Internet Centre](#)
- Hot topics, [Childnet International](#)
- Parent / carer factsheet, [Childnet International](#)
- Healthy relationships: [Disrespect Nobody](#)

- Report a concern to CEOP that a child is being groomed online or sexually exploited <http://www.thinkuknow.co.uk/parents/Get-help/Reporting-an-incident/>

6. Cyber-Bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps, chatrooms or gaming sites such as Snapchat, Twitter or TikTok and involves the harassment, threat, embarrassment, intimidation or targeting of someone. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.) Unlike physical bullying, cyber-bullying can often be difficult to track as the cyber-bully (the person responsible for the acts of cyber-bullying) can remain anonymous when threatening others online, encouraging them to behave more aggressively than they might face-to-face.

6.2 Preventing and addressing cyber-bullying

[Adapt this sub-section to reflect your school's approach.]

All our pupils understand our school's approach and are clear about the part they can play to prevent cyber-bullying, including when they should be upstanders not bystanders.

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. In line with our safeguarding and child protection policy, procedures and training, pupils are supported by staff to report cyber-bullying, including where they are a witness rather than the victim, so that they are assured that they will be listened to and incidents acted on.

We do our best to create an inclusive atmosphere in school by encouraging open discussions about the differences between people that could motivate any form of bullying, such as religion; ethnicity; disability; gender; sexuality; appearance related difference; different family situations, children being in the care system; or those with caring responsibilities. We also teach our pupils that using any prejudice-based language is unacceptable.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs and the forms it may take. Pupils also know that the school will implement disciplinary sanctions which will reflect the seriousness of the incident so that others see that cyber-bullying is unacceptable and that their behaviour is wrong.

Class teachers and form tutors will discuss cyber-bullying with their tutor groups, and the issue will be addressed in assemblies, PSHE lessons and on personal development days.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training.

The school also sends information on cyber-bullying to parents and carers so that they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will consider whether the incident should be reported to the police if it involves illegal material, and will work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

School staff have the specific power under the Education and Inspections Act 2006 (which has been increased by the Education Act 2011) to search for and, if necessary, delete inappropriate images or files on pupils' electronic devices, including mobile phones, iPads and other tablet devices,

where they believe there is a 'good reason' to do so. These powers are compatible with Article 8 of the European Convention on Human Rights.

DfE guidance states that parental / carer consent is not required to search through a young person's mobile phone. If a member of staff has reasonable grounds to suspect the device provides evidence that an individual has committed an offence, it should be retained and passed to the police.

When deciding whether there is a good reason to examine or erase data or files on an electronic device, staff must reasonably suspect that the data or file in question has been, or could be, used to:

- Cause harm, and/or
- Disrupt teaching, and/or
- Break any of the school rules

If inappropriate material is found on the device, it is up to the staff member in conjunction with the DSL or other member of the senior leadership team to decide whether they should:

- Delete that material, or
- Retain it as evidence (of a criminal offence or a breach of school discipline), and/or
- Report it to the police (staff may also confiscate devices for evidence to hand to the police, if a pupil discloses that they are being abused and that this abuse includes an online element.)

Any searching of pupils will be carried out in line with the DfE's latest guidance on [screening, searching and confiscation](#) and UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#).

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

7. Acceptable Use of the Internet in school

The Internet is used in school to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management functions.

All pupils, parents / carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 3, 4 and 6). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of school owned and managed hardware, such as computers, to access the internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above.

More information is set out in the acceptable use agreements in appendices 7 and 8.

8. Pupils using mobile devices in school

The King Edward VI Foundation expects all schools to have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This

access means whilst at school, child-on-child abuse, bullying or sexually harassment via mobile and smart technology, sharing of indecent images consensually and non-consensually (often via online chat groups) and viewing and sharing pornography and other harmful content may occur. Our schools should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection and safeguarding policy.

Any pupil who brings a mobile phone or personal device into school is agreeing that they are responsible for its safety. The school will not take responsibility for personal devices that have been lost, stolen or damaged.

Mobile phones seen by staff will be confiscated and retained. Please see our behaviour, attitudes and rewards policy for more detail on our procedure: <https://www.hwga.org.uk/wp-content/uploads/2023/10/Behaviour-Attitudes-and-Rewards-Policy-2023.pdf>

9. Staff using school owned and managed devices outside school

Staff members using a work device outside school must not use the device in any way which would violate the school's terms of acceptable use, as set out in [appendix 3.]

Staff must ensure that they do not share their password with others. They must take all reasonable steps to ensure the security of their work device when using it outside school. Any USB devices containing data relating to the school must be encrypted.

If staff have any concerns over the security of their device, they must seek advice from the ICT manager. If they receive inappropriate contact or content, including threats or defamation, they should report to their Line Manager immediately.

Work devices must be used solely for work activities.

10. How the school will respond to issues of misuse

10.1 Misuse

Where a pupil misuses the school's technology and digital systems or internet, we will follow the procedures set out in the behaviour attitudes and rewards policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's technology and digital systems or the internet or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen offline but are enabled at scale and at speed online) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes include:

- unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer network to look for test paper answers or change grades awarded

- ‘Denial of Service’ (Dos or DDoS) attacks or ‘booting’. These are attempts to make a computer, network or website unavailable by overwhelming it with internet traffic from multiple sources, and, making, supplying or obtaining malware (malicious software) such as viruses, spyware ransomware, botnets and Remote Access Trojans with the intent to commit further offence, including those above.

Children with particular skills and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime.

If there are concerns about a child in this area, the designated safeguarding lead (or deputy), should consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low-level cyber-dependent offences and divert them to a more positive use of their skills and interests.

Note that Cyber Choices does not currently cover ‘cyber-enabled’ crime such as fraud, purchasing of illegal drugs online and child sexual abuse and exploitation, nor other areas of concern such as online bullying or general on-line safety.

Additional advice can be found at: Cyber Choices, ‘NPCC- When to call the Police’ and National Cyber Security Centre - NCSC.GOV.UK

10.2 Procedures for staff if they are being cyber bullied

Staff should never respond or retaliate to cyberbullying incidents. They should report incidents appropriately and seek support from a line manager or a senior member of staff. Evidence of the abuse such as screen shots of messages or web pages should be saved, together with a record of the time and date.

Where the perpetrator is known to be a current pupil or colleague, the majority of cases can be dealt with most effectively through the school’s own mediation and disciplinary procedures. Where the perpetrator is known to be an adult, a meeting will be held with the victim to address concerns, and appropriate measures will be taken, including ensuring the offending comments are removed.

Schools or individuals can report the matter to the social networking site if it breaches their terms, or seek guidance from the local authority, legal advisers or support from other agencies for example, The UK Safer Internet Centre www.saferinternet.org.uk or [Professional Online Safety Helpline](#).

If the comments are threatening or abusive, sexist, of a sexual nature or constitute a hate crime, individuals or a representative from the school may consider contacting the local police. Online harassment is a crime.

If staff think they have been affected by a hate crime, they can report it [here](#).

11.Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying, sexual violence and harassment, and the risks of online radicalisation.

All staff should be aware of the systems in their school or college which support safeguarding, and these should be explained to them as part of staff induction. As a minimum the KCSIE Part One and the safeguarding and child protection policy will be shared with staff at induction.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology and digital systems is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Child-on-child abuse can occur online through:
 - Abusive, harassing, and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- protect themselves
- develop better awareness to assist in spotting the signs and symptoms of online abuse
- develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh the risks up
- develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and any deputies will undertake child protection and safeguarding training, which will include online safety, at least every two years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

The Headteacher will also undertake child protection and safeguarding training, which will include online safety, at least every two years.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring Arrangements

The DSL logs behaviour and safeguarding issues related to online safety. This information may be obtained from smooth wall who monitor online activity on student devices and send alerts to key members of staff.

This policy will be reviewed centrally by the Education Department and locally on an annual basis by the Designated Safeguarding Lead. At every review, the policy will be shared with the Local Governing Body.

A review of our filtering and monitoring provision will be completed at least annually.

13.Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behavior, attitudes and rewards policy
- Data protection policy and privacy notices
- Complaints procedure
- Staff Code of Conduct
- Remote learning
- Photography Policy

Appendix 2 – Device loan agreement form

Device Loan Agreement Form

Student Name: _____

Date: _____

A King Edward VI Handsworth Wood Girls' Academy device is being loaned to the borrower for academic purposes. It is my responsibility to care for the equipment and ensure it is maintained in a safe environment. If the device is lost, stolen or damaged, parents/guardians/students should immediately inform the academy ICT Network manager.

The device, device charger, charger cord and carrying case are the property of King Edward VI Handsworth Wood Girls' Academy and is herewith being loaned to the student for educational purposes only for the academic years whilst studying at the academy. Students may not deface or destroy this property in any way. Inappropriate material on the machine may result in the student losing their right to use this computer and face disciplinary action as stated in the academy behaviour policy. The equipment will be returned to the school on a date to be requested or sooner if the student leaves prior to the end of the academy academic year. Students who do not return the computer and related materials when requested may be subject to criminal prosecution or civil liability. A late fee may be charged if the device is not returned to the academy on the required check-in date.

If the device equipment is lost, stolen or damaged while in the borrower's possession, the borrower is responsible for the replacement or repair thereof and the academy against any claim occurring during or resulting from borrower's possession or use of the academy property, including, but not limited to any claim for infringement or violation of applicable trademarks and copyrights attributable to the borrower's use of the device. The borrower may use device equipment only for non-academic purposes, in accordance with the academy's IT User Declaration (which I will also be required to sign).

Any included software may be used only in accordance with the applicable license and it is the borrower's responsibility to be familiar with and to comply with the provisions of such license. Borrower may not install or utilize any software in connection with the borrower's use of the device equipment other than software owned by the academy and made available in accordance with this receipt and agreement and the borrower agrees not to make any unauthorized use of or modifications of such software.

The academy is not responsible for any computer or electronic viruses that may be transferred to or from the device or other data storage medium and the borrower agrees to make their best efforts to avoid the device being damaged or rendered inoperable by any such electronic virus while in their possession. By signing below, borrower and borrower's parent/guardian acknowledge and agree to the terms of use as spelled out in this Device Loan Agreement Form.

King Edward VI Handsworth Wood Girls' Academy

Device Loan Agreement Summary

Student Responsibilities

Your device is an important learning tool and is for educational purposes only. In order to take your device home each day, you must be willing to accept the following responsibilities:

- ☐ I know this computer is on loan to me. All academy policies, procedures and applicable laws must be followed. I understand that any violation could result in loss of the device for my use or disciplinary action as stated in the academy behaviour policy.
- ☐ I will treat the device with care and will be responsible in using the device.
- ☐ I will not loan the device to others, it will stay in my possession at all times.
- ☐ I will not load or delete any software from the device and I will comply with all copyright laws.
- ☐ I will not remove or alter the device label or the ID inventory number.
- ☐ I will not give personal information when using the Internet.
- ☐ I will not attempt to make any repairs to the device.

Parent Responsibilities

Your child has been issued a device to improve and personalise her education whilst studying at the academy. It is essential that the following guidelines be followed to ensure the safe, efficient, and ethical operation of your child's device.

- ☐ I will discuss academy policies and expectations regarding the use of the Internet and will supervise my child's use of the device at home.
- ☐ I will not attempt to make any repairs to the device.
- ☐ I will report to the academy any problems with the device.
- ☐ I will not load or delete any software from the device and I will comply with all copyright laws.
- ☐ I know that if my child comes to the academy without her device I may be called to bring it to the academy.

Appendix 3 -IT Acceptable usage agreement form staff

ICT Acceptable Use Agreement: Staff

- I will only use the academy's ICT systems, including the internet, email, digital video, online services and mobile technologies for academy purposes.
- I will only log on to the academy network, other systems and resources with my own user name and password.
- I will follow the academy's ICT security system and not reveal my passwords to anyone and change them as required.
- I will only use my academy email address for online communications with staff/students and any other third parties I am working with for academy purposes (such as for work experience or an academy project).
- I will make sure that all ICT communications with students, staff or others is responsible and sensible.
- I will be responsible for my behaviour when using the Internet. This includes resources I access and the language I use.
- I will not browse, download, upload or forward material that could be considered offensive or illegal. If I accidentally come across any such material I will report it immediately.
- I am aware that when I take images of students and/or staff, that I must only store and use these for academy purposes in line with the academy's data protection policy and must never distribute these outside the academy network without the permission of all parties involved.
- I will ensure that my online activity, both in academy and outside academy, will not cause my academy, the staff, students or others distress or bring the academy community into disrepute, including through uploads of images, video, sounds or texts.
- I will support the academy approach to online safety and not upload or add any images, video, sounds or text that could upset any member of the academy community.
- I will respect the privacy and ownership of others' work on-line at all times.
- I will not attempt to bypass the internet filtering system.
- I understand that these rules are designed to safeguard the academy, students and myself and that if they are not followed, academy disciplinary procedures will be applied.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available to relevant academy staff.
- I understand that removable media is not to be used on the academy network

Appendix 4 – ICT Acceptable usage agreement: Students

ICT Acceptable Use Agreement: Students

- I will only use the academy's ICT systems, including the internet, email, digital video, online services and mobile technologies for academy purposes.
- I will not download or install software on devices provided by the academy.
- I will only log on to the academy network, other systems and resources with my own user name and password.
- I will follow the academy's ICT security system and not reveal my passwords to anyone and change them as required.
- I will only use my academy email address for online communications with staff/students and any other third parties I am working with for academy purposes (such as for work experience or an academy project).
- I will make sure that all ICT communications with students, staff or others is responsible and sensible.
- I will be responsible for my behaviour when using the Internet. This includes resources I access and the language I use.
- I will not browse, download, upload or forward material that could be considered offensive or illegal. If I accidentally come across any such material I will report it immediately to my teacher.
- I will not give out any personal information such as name, phone number or address. I will not arrange to meet someone I have communicated with online and will report such a request to a member of staff, or a responsible adult at home, immediately.
- I am aware that when I take images of students and/or staff, that I must only store and use these for academy purposes in line with the academy's data protection policy and must never distribute these outside the academy network without the permission of all parties involved. This includes academy breaks and all occasions when I am in academy uniform (onsite and offsite) or when otherwise representing the academy.
- I will ensure that my online activity, both in academy and outside academy, will not cause my academy, the staff, students or others distress or bring the academy community into disrepute, including through uploads of images, video, sounds or texts.
- I will support the academy approach to online safety and not upload or add any images, video, sounds or text that could upset any member of the academy community.
- I will respect the privacy and ownership of others' work on-line at all times.
- I will not attempt to bypass the internet filtering system.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available to relevant academy staff.
- I understand that these rules are designed to keep me safe and that if they are not followed, academy sanctions will be applied and my parent/carer will be contacted.
- I will not sign up to online services that I am not old enough to use.

Appendix 5 – Student user IT Declaration

Handsworth Wood Girls' Academy - IT User Declaration

1.0 Purpose

This statement has been established to:

1.1 Provide guidelines for the conditions of acceptance and the appropriate use of the computing and networking resources provided for use by Students.

1.2 Encourage users to understand their own responsibility for protecting the school's assets.

2.0 Audience

2.1 These principles apply to: Students using academy provided ICT equipment connected locally or remotely to the network of the academy. Throughout this policy, the word 'user' will be used collectively to refer to all such individuals or groups.

3.0 Mobile Devices (including iPad, iPhone, Tablet, Laptop and any other type of mobile device)

3.1 The use of mobile devices for ICT, introduces security implications including:

- Loss or theft of the mobile device
- Loss of business information on the mobile device
- Unauthorised network access
- Data integrity

3.2 Users therefore have a duty of care whilst using such devices to ensure that they are used for their intended purpose, without creating risks, by understanding the way the mobile devices should be used.

3.3 All academy supplied devices i.e. iPhone, Tablet, iPad, Laptop are the property of the academy and so it has the right to audit and monitor the device, similar to any other electronic device.

3.4 Users must take reasonable care to protect the device from loss or theft. The device should be locked away while not in use and adequate home insurance should be obtained to cover the cost of a like for like replacement in the event of theft. The device should not be left in your vehicle unattended.

3.5 Users must immediately inform the IT Technicians when the device is damaged, stolen or lost.

4.0 Use of the Academy Network, Emails and Firefly

4.1 Users understand and accept that they are responsible for reading other ICT related academy policies (Including E-Safety Policy).

4.2 The holder of an academy computer account or computer system connected to the academy network is responsible for the actions associated with the computer account or computer system.

4.3 Users must respect the rights, privacy and property of others.

4.4 Users must adhere to the confidentiality rules governing the use of passwords and accounts, details of which must not be shared and a strong password must be used:

A strong password:

- Are at least eight characters in long.
- Does not contain your user name, real name, or company name.
- Does not contain a complete word.
- Is significantly different from previous passwords.
- Contains characters from each of the following four categories:

Character category	Examples
Uppercase letters	A, B, C
Lowercase letters	a, b, c
Numbers/Symbols	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, #, \$.....

4.5 Passwords must not be disclosed to anyone. Temporary passwords provided by IT staff to users must be changed immediately following a successful login.

4.6 Passwords will automatically run out after 90 days and will prompt users to change.

5.0 Data Protection

5.1 Users of the academy network and devices belonging to the academy must adhere to the Data Protection Act (1998) at all times.

5.2 Network and system passwords must not be stored on mobile devices or written down.

5.3 Users must take appropriate measures to protect against the accidental loss, damage or theft of academy information held on mobile devices, especially if that information relates to personal information.

5.4 If a devices logged onto the network is left unattended, it should be locked to require the user password in order to gain access to the device.

5.5 Portable storage devices (including memory sticks/USB stick, external hard drives, DVD's, CD's or any other portable media) must not be used on the academy network.

ICT User Declaration

I hereby acknowledge receipt of my ICT User Declaration and accept that it is my responsibility to read and comply with all policies.

Appendix 6 – IT User Declaration

Handsworth Wood Girls' Academy - IT User Declaration

1.0 Purpose

This statement has been established to:

1.1 Provide guidelines for the conditions of acceptance and the appropriate use of the computing and networking resources provided for use by teachers, professionals and support staff.

1.2 Encourage users to understand their own responsibility for protecting the school's assets.

2.0 Audience

2.1 These principles apply to: teachers, support staff and all others using academy provided ICT equipment connected locally or remotely to the network of the academy. Throughout this policy, the word 'user' will be used collectively to refer to all such individuals or groups.

3.0 Mobile Devices (including iPad, iPhone, Tablet, Laptop and any other type of mobile device)

3.1 The use of mobile devices for ICT, introduces security implications including:

- Loss or theft of the mobile device
- Loss of business information on the mobile device
- Unauthorised network access
- Data integrity

3.2 Users therefore have a duty of care whilst using such devices to ensure that they are used for their intended purpose, without creating risks, by understanding the way the mobile devices should be used.

3.3 All academy supplied devices i.e. iPhone, Tablet, iPad, Laptop are the property of the academy and so it has the right to audit and monitor the device, similar to any other electronic device.

3.4 Users must take reasonable care to protect the device from loss or theft. The device should be locked away while not in use and adequate home insurance should be obtained to cover the cost of a like for like replacement in the event of theft. The device should not be left in your vehicle unattended.

3.5 Users must immediately inform the IT Technicians and Finance Team when the device is damaged, stolen or lost. Users will be asked to replace some items. This decision will be reviewed case by case. As Apple Pencils are part of a lease any staff member losing this item will be responsible for its replacement irrespective of circumstance..

4.0 Use of the Academy Network, Emails and Firefly

4.1 Users understand and accept that they are responsible for reading other ICT related academy policies (Including E-Safety Policy) and the Staff Handbook.

4.2 The holder of an academy computer account or computer system connected to the academy network is responsible for the actions associated with the computer account or computer system.

4.3 Users must respect the rights, privacy and property of others.

4.4 Users must adhere to the confidentiality rules governing the use of passwords and accounts, details of which must not be shared and a strong password must be used:

A strong password:

- Are at least eight characters in long.

Appendix 7 – Student Device Expectations - Chromebooks

- My Chromebook will never be left unattended in any unsupervised area.
- I will not deface my Chromebook
- I will not lend or share my Chromebook with other pupils unless expressly asked to do so by a teacher in a classroom situation.
- I will not let friends and family use my Chromebook.
- If I leave my Chromebook at home I am responsible for getting any assignments or coursework completed as if I had my Chromebook present.
- I will bring my Chromebook to school each day in a fully charged condition.
- I will always turn off/lock and secure my Chromebook after I am done working to protect my work and information.
- I will use my Chromebook in a responsible and ethical manner
- I will not use another student's Chromebook without permission.
- I will make sure my Chromebook is put away unless I am asked to use it in lessons.
- I will only use an app that a teacher has asked me to use in lesson.
- I will not message other students on my Chromebook in lesson unless asked to by a teacher.
- I will not play games on my Chromebook in a lesson.
- I will not take photos of other students without their permission.
- I will stay on task on my Chromebook.

Appendix 8 – Student Device Expectations Ipad

- My iPad will never be left unattended in any unsupervised area.
- I will make sure a protective case is used with the iPad at all times.
- I will not lend or share my iPad with other pupils unless expressly asked to do so by a teacher in a classroom situation.
- I will not let friends and family use my iPad.
- If I leave my iPad at home I am responsible for getting any assignments or coursework completed as if I had my iPad present.
- I will bring my iPads to school each day in a fully charged condition.
- I will always turn off/lock and secure my iPad after I am done working to protect my work and information.
- I will use my iPad in a responsible and ethical manner
- I will not use another student's iPad without permission.
- I will make sure my iPad is put away unless I am asked to use it in lessons.
- I will only use an app that a teacher has asked me to use in lesson.
- I will not message other students on my iPad in lesson unless asked to by a teacher.
- I will not play games on my iPad in a lesson.
- I will not take photos of other students without their permission.
- I will stay on task on my iPad.
