Rationale:

CURRICULUM VISION

Curriculum Aims:

Our curriculum will reflect our academy values: scholarship - character - community and drive us in our mission to unlock a thirst for learning for all to successfully access an ever-changing world.

We explicitly learn through advanced cognitive performance characteristics in our curriculum alongside sequenced declarative and procedural knowledge.

We ensure students are able to remember and apply knowledge readily and in different contexts through deliberate practice. We actively foster the performance values, attitudes and attributes in our curriculum alongside our character education programme.

Our curriculum is coherent and reflective of the local community, its rich cultural heritage and diversity. We never tell our students they cannot achieve; it is just they are not doing it yet but with practice and perseverance it will happen.

The overarching aims of our curriculum will underpin the following outcomes:

Increasingly strong academic results year-on-year leading to good post school destinations.

Well-motivated and engaged students; school-ready, college-ready, work-ready and life ready. Effective citizens that have the cultural capital to be successful, socially mobile and proud of their achievements.

What underpins our vision?

At KEVI HWGA our curriculum is sequenced to ensure that students gain knowledge, connect key concepts, acquire new skills and learn how to apply this confidently in different contexts. Our curriculum leaders carefully consider what knowledge should be secured and plan how best to map knowledge to ensure that pupils learn that knowledge in a way that means they remember it and can use it. Our curriculum vision is intrinsically linked to our academy vision and our academy values of scholarship, character and community which run through our aims.

In June 2022 we became a High Performance Learning (HPL) World Class School and have been implementing the HPL framework alongside our curriculum where we weave together the ACPs (disciplinary knowledge) and the substantive knowledge of each unique curriculum domain.

The HPL framework underpins the learning culture and educational fabric of the academy. The HPL ethos chimes with our academy values: scholarship- character - community and drives us in our mission to unlock a thirst for learning for all to successfully access an ever-changing world. To overcome barriers and embrace challenges to enrich themselves and our community. We are strongly aligned to the belief that high

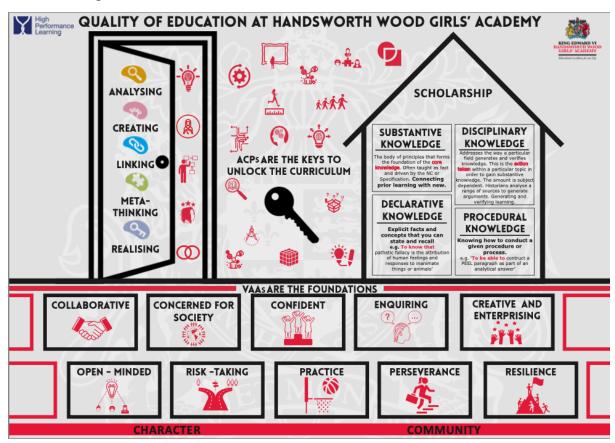

performance is for the many, not just for the few, as we embark on our journey to be a world class school.

High Performance Learning is a research-based, pedagogy-led philosophy that responds to our growing understanding of human capability. It normalises high performance for all students and uses a unique teaching and learning framework to systematically develop the cognitive skills, values, attitudes and attributes needed for lifetime success. (Deborah Eyre)

What does our curriculum look like?

Our curriculum is defined by big questions to explore, key concepts to connect learning together and clearly articulated declarative and procedural knowledge highlighted in long-term plans. The approach we take to learning continues to evolve as we embed the HPL framework of how learners think (Advanced Cognitive Performance) and how learners behave – (Values, Attitudes, Attributes) into our curriculum and culture. We continue to build the HPL cognitive competencies into our subject curriculum alongside substantive knowledge and disciplinary skills. Each curriculum area is carefully planned to build on existing knowledge at each stage of learning whilst revisiting key concepts to deepen understanding.

Long Term Progression Mapping

Year 10	Are you able to use a variety of dramatic terms for both on and backstage, and then apply these techniques to new theatrical ideas? Understanding Drama LINK: COMPONENT 1 Pupils to explore all aspects of drama using the key skills/terminology booklet: 1) Key terminology booklet: 2) Staging types 3) Lighting/sound/set/props/costume Pupils to explore more complex ways of developing drama using several different stimuli. Connection Finding Strategy Planning Linking Meta-Thinking Collaborative, Open Minded, Creative and Enterprising	How do we explore a set text in detail, using acting skills both practically and in a written response? Understanding Drama LINK: COMPONENT 1 A03 Introduction to the set text 'Blood Brothers'. Explore the play, characters, themes, structure, historical context. Pupils need to develop a confidence with writing acting skills. SKC – 6 – 10th December 2021 Speed and Accuracy Originality Connection Finding Fluent Thinking Automaticity Intellectual Confidence Enquiring	How can I use a stimulus to create an orginal piece of drama that has a dramatic purpose for it's audience? Devise Drama COMPONENT 2 EXAM Pupils to complete the exam requirements for Component 2: 1) Respond to stimuli (several to be presented over several workshop sessions) 2) Explore, rehearse and perform a devised drama 3) Complete a written log: a) Response to stimulus b) Development and collaboration c) Analysis and evaluation Meta-cognition Strategy Planning Complexe and Multi-step Problem Solving Originality Automaticity Collaborative, Open Minded, Creative and Enterprising Component 1 – Live Theatre Review Practice	How can I use a stimulus to create an original piece of drama that has a dramatic purpose for it's audience? Complete COMPONENT 2 performance exam under exam conditions Meta-cognition Strategy Planning Connection Finding Connection Finding Complex and Multi-step Problem Solving Originality Automaticity	How do I write an effective log in accordance with the C2 exam requirements? Complete COMPONENT 2 log book. a) Response to stimulus b) Development and collaboration c) Analysis and evaluation Connection Finding Fluent Thinking Automaticity Collaborative, Open Minded, Creative and Enterprising
Key Knowledge, Concepts and skills	Understanding drama terminology Technical design and terms Exploring a stimulus using complex theatrical techniques Staging a play, Design Elements	Exploring set text Writing acting skills Understanding key terminology Genre, Thatcherism, Style, Recession, Poverty, Class Division	Essay Applying drama explorative strategies to original drama Understanding how to communicate with an audience through drama Theatrical Experience	Skills showcased – technical design or acting through original drama	Writing acting skills, rehearsal technique and reviewing performance success Critical Thinking
Feedback & Assessment	AO3 and AO4 – Understanding drama Key terminology booklet Workshop performance pieces	AO3 and A04 – Set text Written practice on exam style questions SKC – December 2021 Workshop performance of script extracts	A01 and A02 – Devising drama, responding to stimuli Rehearsal of devising process Logbook entries during process Feedback offered throughout Live Theatre Review Essay	AO2 – Performance Exam performance of devised drama	AO3 and AO4 – Written log Complete written log with regular teacher feedback

Key Concept Mapping (History Example)

- Power what is power? How does one gain power? How does one keep power?
 - a. Revolution
 - b. Empire
- 2. Similarity and difference between different people's experiences, within the same period and between periods
- 3. Change over time being able to recognize how things have changed, and to situate ideas/events/artefacts within particular periods
- 4. Cause and consequence Events, decisions or developments in the past produce later actions, ,results or effects
- 5. Perspectives people from the past and those commenting on the past have different views and experiences
- 6. Significance what makes something more significant than something else?

 How can you argue this? Why must historians attempt to determine relative significance?
- Persecution understanding the nature of persecution and developing empathy, understanding another's views, life and decisions
- 8. Democracy the nature, importance and campaigns for democracy and human/civil rights.

Key Stage 3 - Concepts mapped by topic

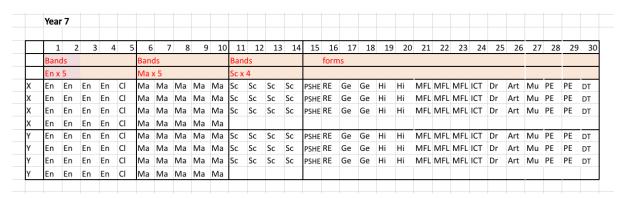

What is our curriculum package?

How do we ensure coherence and consistency?

Alongside regular drop-ins to lessons which enable staff to share best practice, observe colleagues teach and take part in instructional coaching we also use a curriculum review cycle. This is led by the Curriculum Leader and a curriculum review team.

The Curriculum Review Cycle starts with the leader reviewing their curriculum area using a toolkit of questions to self-evaluate. The next step is for the curriculum leader to work with their team on the suggested actions to improve the curriculum design and/or implementation and formulate a departmental action plan. This is a live document that is constantly reviewed and revisited throughout the academic year and beyond.

Using the curriculum leaders self-evaluation of where they are positioned with the curriculum will then lead into a curriculum review held over 1-2 days dependent on the size of the department. The review gives self, peer, and leader evaluation throughout the process. The purpose of the review is to be reflective and ensure the evaluation of the curriculum is consistent and the implementation is coherent.

The review cycle

Curriculum Review Toolkit (SEF)

Action Plan

Departmental Review

Exemplar:

- 1. Begin by reviewing medium term planning for the appropriate period (usually every term, or half-term). You will need evidence to inform your review. This evidence is likely to consist of:
 - A sample of students' work (make sure this is a representative cross section). Ensure the sample reflects students of different levels of prior attainment, including SEN students and those with low reading ages.
 - Feedback from assessments. This could be summative assessments, feedback from recall and retrieval activities (e.g., starters, quizzes etc) and from any interim assessments.
 - Feedback from teaching. The reflections of subject staff about how well students engaged with, and learned, well curriculum content is
 essential. What went well? What went less well? Where did lower-attaining students struggle in particular? What content appeared too
 easy for students? Was sequencing effective? Did students have important gaps in their knowledge?
 - Lesson resources used. For example, slide sets created and used in lessons, activities, tasks and any textbooks or other resources.
- 2. Review students' work and learning against the planned curriculum (in medium-term plans) in each year group. Take a year group at a time.

 Cross check students' work against the *intentions* in the curriculum planning. Discuss as a team your experience of teaching the curriculum content over the period under review and the feedback from students and your knowledge of their learning of the curriculum. Draw also on evidence from assessments to triangulate against students' work and colleagues' reflections from teaching the content.

As you look through students' work, and discuss your reflections about curriculum implementation, complete the table below:

Curriculum review focus	Sel	f-revi	iew	Comments (e.g. specific examples, and/or suggested causes/reasons)	Suggested actions to improve curriculum design and/or implementation
1. How closely does students' work reflect the					
intended (planned) curriculum?					
Consider:
